

As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives, **we pledge** to strive for **ZERO WASTE**.

Over the next year, we plan to accomplish these 4 goals:

- Utilize Zero Waste's clear streams to make our Open House a zero waste event.
- Encourage employees to take the extra step to rinse out dirty yogurt containers so that they can be recycled.
- Add more recycling bins to specific locations to increase recycling access, and have Rural Action create signs for these bins to increase understanding of best recycling practices.
- Explore options for composting leftover paper and plant-based products used for events.
