

As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives, **we pledge** to strive for **ZERO WASTE**.

Over the next year, we plan to accomplish these 3 goals:

- Begin using a compost tumbler to divert food scraps and teas from the landfill.
- Get creative with hard-to-recycle materials (i.e. plastic bags and plastic film) by finding more opportunities for reuse.
- Explore local recycling resources for hard-to-recycle materials that can't be reused (i.e. milk cartons, soup and juice boxes).
