

As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives,
WE PLEDGE to strive for **ZERO WASTE**.

Over the next year, we plan to accomplish these 3 goals:

- Reduce waste by replacing paper towel use with cloth towels whenever possible and by researching the current and complicated alternatives available among take-out packaging products and making informed choices about which to use.
- Switch to a phenol-free (free of BPA and BPS) thermal receipt paper.
- Increase composting capacity by adding to the diner's food waste collection the paper towel, napkin, and coffee grind compostable waste for drop off at Athens Hocking Organics.
