As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives, WE PLEDGE to strive for ZERO WASTE.

Over the next year, we plan to accomplish these 3 goals:

- Use a composting tumbler to increase composting capacity for Sunflower Bakery’s organic waste.
- Reuse "single-use" items as many times as possible before tossing.
- Promote sustainable practices by educating customers about zero waste principles, about why we practice zero waste at Sunflower Bakery and how they can reduce their own use of disposable packaging by increasing their use of reusable containers and utensils.
