As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives, WE PLEDGE to strive for ZERO WASTE.

Over the next year, we plan to accomplish these 5 goals:

- Use small glassware for beer sampling as opposed to plastic cups whenever the glassware can accommodate the demand.
- Switch to bulk dispensers for condiments instead of using non-recyclable black plastic sample cups/lids or disposable packets.
- Install an additional compost cart in the kitchen that will allow the capacity to include paper towels into the compost.
- Provide training for the staff in what is and is not recyclable and compostable.
- Display illustrated signs for the trash, recycling and compost receptacles that would help guide disposal choices.
