As a business that is aware of the importance of reducing waste for a clean environment, a vibrant economy, and healthy lives, WE PLEDGE to strive for ZERO WASTE.

Over the next year, we plan to accomplish these goals:

- Reduce plastic bag usage at the market by starting a bag-share program and by using surveys to get input and suggestions from vendors and customers.
- Increase the number of recycling and landfill bins around the market and display illustrated signs on them to better inform which waste items go into which bins.
- Provide training about the dos and don’ts of recycling/composting to the vendors.
- Increase the capacity of the compost collection during market by providing more buckets.
